

TO WHOM IT MAY CONCERN**Reference for Sharon Hosegood Associates****July 2017**

Sharon Hosegood Associates have worked for the London Borough of Islington since 2015 providing arboricultural advice to the council on a range of new build developments across it's housing estates.

Sharon Hosegood Associates is highly regarded by parts of this council which includes the Housing Department New Build Team, Planning and Energy Services.

Reports produced by Sharon Hosegood Associates are relied upon by project teams to support their efforts to:

- Install foundations
- Plan landscaping and environmental works
- Determine the health and quality of trees on our estates
- Support planning applications with evidence based assessment of the impact of new build on existing and new trees

The quality of reports produced by Sharon Hosegood Associates are relied upon in the pre-planning and post planning stages and their services are used to support contractors during the ground works stage of construction.

I am happy to recommend Sharon Hosegood Associates as a reliable, trusted and knowledgeable team of arboriculturalists who will support the work of developers, including local authorities to make the best decision for their situation.
