

CAVAT

Chris Neilan
Author - CAVAT

CAVAT - an essential tool for all UK arboriculturists, now widely used to:

- Recover realistic replacement costs for damaged public trees
- Help safeguard trees during development
- Act as an asset management tool.

The day has been carefully planned to give both new or experienced users confidence that they understand both the aims and uses of both methods.

Chris will concentrate on the correct use of the Full method - including a guided practical group session. Refreshments and a light lunch will be provided.

DON'T MISS OUT

Learn how to use CAVAT accurately and defensibly - attendance will be a route towards Certified User status

TRAINING

Sharon Hosegood
ASSOCIATES

Date:- Tuesday 13 February 2018
Time:- 09:00 – 16:00hrs
