

CAVAT TRAINING COLCHESTER

MAY 16TH 2019

Chris Neilan

Originator and
principal developer
of CAVAT

CAVAT - an essential tool for all UK arboriculturists, now widely used to:

- Recover realistic replacement costs for damaged public trees
- Help safeguard trees during development
- Act as an asset management tool.

The day has been carefully planned to give both new or experienced users confidence that they understand both the aims and uses of both methods.

Chris will concentrate on the correct use of the Full method - including a guided practical group session in Castle Park. Refreshments and a light lunch will be provided.

Luke Fay and Sharon Hosegood will briefly discuss using CAVAT & canopy calculations as part of urban Arboricultural Impact Assessments.

Date:- Thursday 16 May 2019
Time:- 09:00 – 16:00hrs
Cost:- £150.00 + vat per person
£120.00 +vat for local
Government Officers

Hosting by
